Remarks

The Library has been open every week during the year and has been well patronized. Although a number of families have moved away, it has made no material difference in the circulation of books. A large number of children have taken cards this last year. They enjoy reading. I think we must thank the teachers for interesting the children so much in reading, which is the most important branch of their education. A large number of books have been donated this year for which we are very thankful. Danford Sawyer gave

nine very interesting boys' books. Miss Blanchard, Concord Librarian, gave 23 books. We think we have a very good selection of books, purchased with town appropriation. They are recommended by trained librarians. We hope our patrons will enjoy them. We hope sometime to have a larger appropriation, then we shall be able to supply our patrons with reading throughout the year. Amy C. Cheney gave 12 geographic magazines. This is one of the best magazines printed. Mrs. Frank Kittredge gave a "Deer's Head," which is very ornamental to the library. We thank Mr. Morgan for keeping the library warm, which has been quite an item this cold winter. We take this opportunity to thank all who have helped the library in any way.

Respectfully submitted,

JENNIE B. ABBOTT,
Librarian.

Report of School Board

The year ending June 30, 1929, has seen the school work carried on in the regular channels with very little interruption. An epidemic caused the attendance in one part of the town to be irregular for one term but the several rooms have maintained their required schedule. We wish to call the attention of the citizens to the reports that follow, financial, treasurer's and the able report of Supt. Henry S. Roberts.

Your Board has made a careful estimate of the requirements for the coming year. It will be necessary to buy more text books and scholars' supplies.

The buildings at Martin's Corner, Hackett Hill and the Village should be painted and we have asked for a sum to cover this expense in the budget. There are minor repairs to be made in all buildings. We appreciate the assistance given us by truant officer, teachers and parents, and hope our work has been beneficial to the town.

REPORT OF Superintendent of Schools

To the School Board and Citizens :

I herewith submit my tenth annual report of the schools of Hooksett for the year ending June 30, 1929.

There were maintained, during the year, ten schools for a school-year of 36 weeks with no change in the teaching force.

The total enrollment was 283 (138 boys, 145 girls), with a daily average attendance of 92.82. There were five more pupils than last year. The schools were in session on an average of 352.6 half-days, a gain of 4.8 half-days over last year.

SCHOOL ACTIVITIES

Of the ten teachers employed all are graduates of high school and have a permanent State certificate. Six are graduates of Normal School, one of Dewey Training School and three have attended Normal School and Summer Institutes for Teachers.

The teacher arrives at the school in the morning in time to have the school house doors opened fifteen minutes before the scheduled time for opening the school.

The activities of the pupils during noon and recess periods are supervised by the teachers, who have learned that a well supervised play-ground not only makes dis-

cipline pleasanter but aids in the improvement of scholarship and in character building.

The teachers have done their work faithfully and efficiently.

The school board is annually improving the sanitary condition of the school buildings and is providing ample scholar supplies and text books.

The health of the child, in a large measure, determines his regularity of attendance, his behavior, his ability to perform successfully his work, and his chance of becoming an efficient citizen. Supervision and instruction in matters of health should have an important place in the school organization.

The health and work in our schools aims to develop the good health and happiness of the pupil and the well being of the community.

Good work is being done by our school nurse who is working faithfully and efficiently in checking epidemics and correcting deformities and maladies.

The teachers are teaching the benefits of good health habits and physical exercise for the well-being of the pupils and the home, with special emphasis upon the prevention of accidents and disease.

Drill in the fundamentals, arithmetic, and examinations by standardized tests were given during the year and showed a marked improvement over previous years.

ATTENDANCE

The problem of school attendance is one of the most important problems in school management.

Regularity of attendance is absolutely necessary in order that the school may perform its special work of training children for the duties of citizenship.

Non-attendance causes an economic loss to the taxpayer ; it causes a very large per cent of the failures of promotion; it retards the work of the entire class, and to a less extent, the work of the whole school.

Parents who desire their children to be promoted, should see that their attendance at school is regular.

I am glad to report that the cases of truancy in our schools are growing less.

RECOMMENDATIONS

I recommend the remodeling of the No. 6 school building, which would necessitate a change in the heating system and toilets, and the introduction of running water into the building. I make the recommendation at this time that the school board and citizens may have this needed improvement in mind for future action.

Music is considered one of the important studies in the school curriculum and I would recommend to the school board the employment of a music supervisor for all the schools as soon as they can make it convenient.

Parents and citizens are invited to visit the schools frequently.

In conclusion, I express my appreciation for the coöperation and assistance given to me by the teachers, the school board and the citizens.

Respectfully submitted,

HENRY S. ROBERTS,

Superintendent of Schools.
